Client Background

The “Proponent Credit Union” means a trusted advocate — is a serving select employer groups ever since 1971. They currently have over 27,000 members and nearly \$430 million in assets.

Business Need

Due to the rapid growth of mobility, the client was facing following challenges:

- Configuration and Installation of source code and script installation
- Standardization of application source code and development and integration of script integration along with WML
- Make the existing Mobile device friendly and comply with domain specifications
- WML File Generation

The Solution

Bourntec’s team started working as an extended part of the client’s engineering team and focused on new development and enhancements to the product. The team was headed by a manager and had regular collaboration with client’s team. Bourntec Offshore team successfully delivered the following services:

- Integration and customization of the desired application
- Enhancement and redirect of Script Development and integration
- Development WML generation in .Net Mobile Controls

Client Benefit

- ✓ A dedicated team helped client to focus on its core activity of managing contents and selling its services leaving the technology challenge to Bourntec team which resulted in more efficient usage of organization resources
